Just like they use in Caesars Palace, Luxor, Bally's, Paris, Excalibur and other Las Vegas casinos – but with **YOUR NAME** on them!

## EDGE SPOTS

Included at absolutely no additional cost, we offer a variety of edge spot designs. Add that finishing touch to your set with a Solid, 2-Spot, 3-Spot, 4-Spot, 3-Spot Multicolor or 4-Spot Multicolor edge design. You can even specify the edge spot colors or let our talented artists use their discretion and choose for you.

## CUSTOM ARTWORK

If none of our twelve “stock” designs do it for you, we’d be happy to create custom artwork to your specifications. Our awesome graphic artists will create a unique work of art for you, designed specifically with you in mind.

We can incorporate your photo, a drawing, your business, your hobby, your dog, your house, whatever you like. You can have “one-sided artwork” which will put the same image on both the “obverse” and the “reverse” (official chip lingo that means the front and the back of the chip). Or, if you really want to go wild, we can create “two-sided artwork” so that your “obverse” and “reverse” are completely different.

You’ll submit your artwork in either an Adobe format (Illustrator, Photoshop, PDF, etc...) or other common graphic format like jpg, bmp, eps, tif, etc... If you don’t have your own image to submit, our incredible artists with their huge clipart library can definitely take your ideas and run with them.
